insulated roller garage doors

## Aluminium Insulated Roller Garage Doors By Birkdale

### Benefits Of Excelsior<sup>®</sup>

Excelsior<sup>®</sup> is an ideal solution for people who want to gain some extra space in a garage. Deciding on our system can save you a lot of space inside your garage. To be fitted Excelsior<sup>®</sup> needs only 30cm x 30cm of head-room space. Excelsior<sup>®</sup> opens vertically so you can park your car close to the door and the Excelsior<sup>®</sup> still opens without having to reverse. Ideal for short driveways.

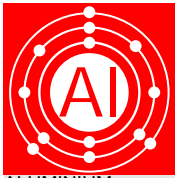

Excelsior<sup>®</sup> is a great insulation barrier, Ideal for integral garages. Save on heating and help the environment.

Excelsior<sup>®</sup> is virtually maintenance free. However to maintain the CE certification an annual low cost service is needed.

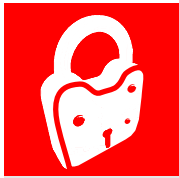

Think about it...

...and check the features.

### Features

STRONGER

ELECTRIC MOTOR

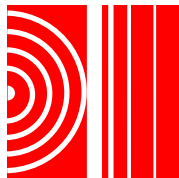

WHITE/SILVER

REMOTE CONTROL

INSULATED

NOISE REDUCTION

SAFETY BRAKE

# Features

WHITE/SILVER

Curtain is finished in white or silver as standard with the optional extra of laminated colours and woodgrain finishes .

ALUMINIUM

Our shutters are made of aluminium. Unlike steel this will not rust and looks much more attractive.

SECURED

Excelsior has built in autolocks. When the door is closed a spring clamp device hold the door down tight.

STRONGER

EXCELSIOR® is an impressive 7 Kg/m<sup>2</sup> making it much stronger when closed

INSULATED

Excelsior is thermally insulated to  $K=4.3 \text{ W/m}^2\text{K}$ . In other words, thermal insulation can keep an enclosed area such as a garage warm. Ideal for integral garages, garages with bedrooms above. Reducing CO<sup>2</sup>

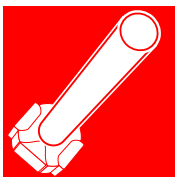

NOISE REDUCTION

The Excelsior's impressive 15mm thick curtain acts as a sound barrier.

ACCESSORIES

Two remote controls, a photocell safety beam and a courtesy light are supplied as standard.

ELECTRIC MOTOR

Powered by high quality tube motor with manual override and a 5 year warranty.

SAFETY BRAKE

Excelsior® as a safety brake to comply with stringent European laws. Keeping you safe and legal.

SAFETY EDGE

A sensor is located in bottom rail of the door. Which causes the door to stop and return to the open position if it an obstacle in th e doorway. This avoiding damage to door or obstruction.

KEYPAD

For access without the need to carry hand transmitters.

MANUAL OVERRIDE

A lockable through wall drive, for garages with no other entrance.

BATTERY BACK UP

Add the battery back up and never worry about power failure again, no pulling on awkward cables to release the door or winding a crank handle. Just carry on using it as normal and wait for power to return.

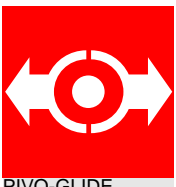

LAMINATE

Our in house laminating machine can create some fantastic finishes which are impossible to create with a normal paint finish. This is also a tougher finish with a 5 year warranty .

FULL BOX

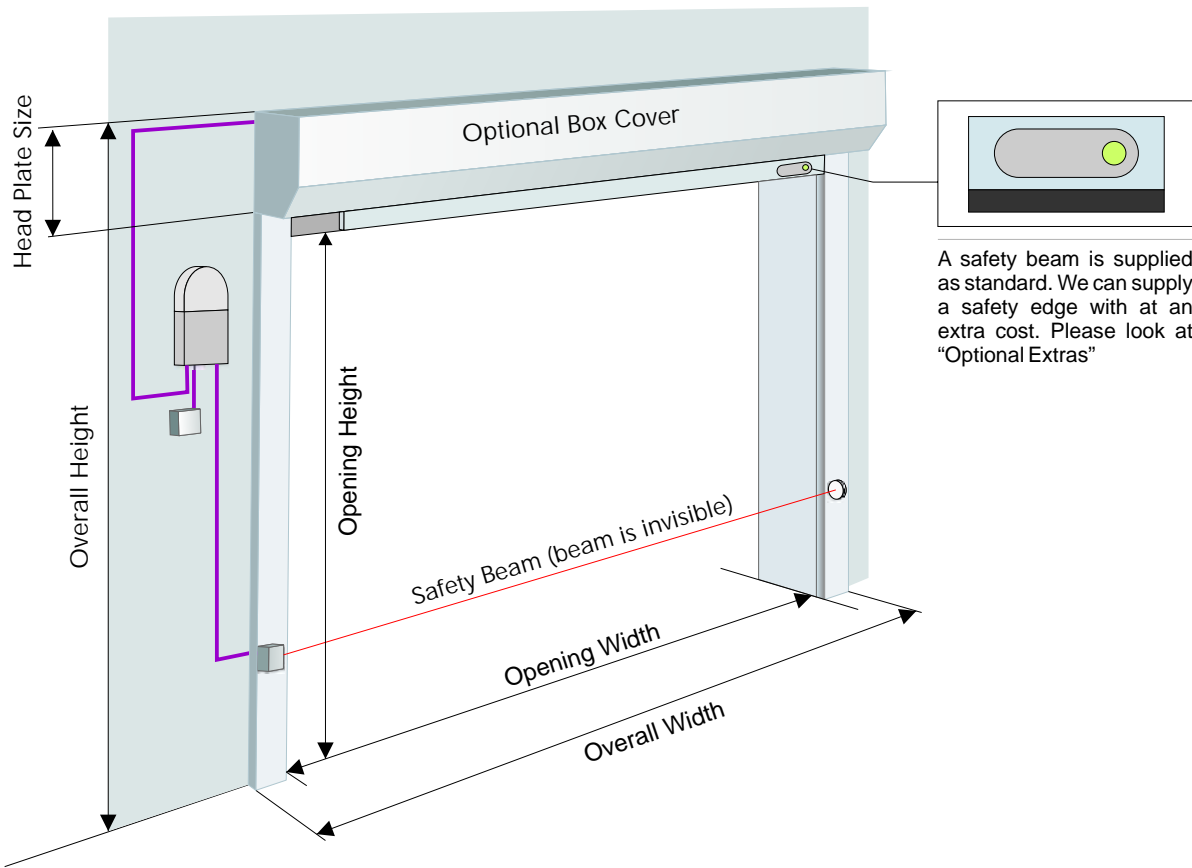

This prevents accidental finger entrapment and finishes the roller shutter off nicely. The fully box is in one piece with no unsightly rivets and no sagging unlike with steel hoods. This comes finished in white and can be powder coated any other colour as an optional extra.

PIVO-GLIDE

Behind the Excelsior® cover there are special sliding end brackets, enabling the curtain to be fed straight into the tracks as the shutter unrolls, thereby reducing wear and scuffing of the curtain edges.

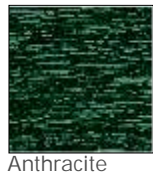

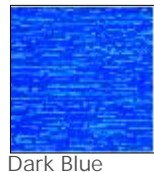

# Overview

## Curtain colour options

Curtain solid laminated colours option.

Curtain woodgrain laminated colours option.

Over the past 20 years, Birkdale has prided itself on developing a leadership role within our industry. During this period, we have constantly challenged ourselves to offer an unparalleled range and diversification of products.

Customer service continues to be the cornerstone of our business. Our professionally trained staff of experienced men and women welcome with open arms the everyday challenges which exist in our industry...

At Birkdale, our team recognizes we will be judged by the most recent experience each customer has with us. As such, we strive to make each transaction as efficient, productive, and pleasant as possible.

All of us at Birkdale recognise the value of customer service and we remain totally committed to demonstrating our gratitude to those who place their business with us. To those potential customers viewing us perhaps for the first time, we invite to experience at first hand Birkdale products and service.

## Quality control

Our sectional doors are CE marked to BS EN 13241-1:2003. The principle European standard identifies all the critical health and safety considerations within the design and manufacture of the product. This gives resellers, users and consumers the necessary reassurance that they are purchasing a safe and reliable product.

Our products are manufactured under an ISO:9001 Quality management system, assuring you that your door is monitored from start to finish.

Our products are manufactured under an ISO:14001 environment management system assuring you that we monitor and reduce our carbon footprint wherever possible.

## Extruded Aluminium Security Roller Shutters

Manufactured from double wall extruded aluminium lath. The special design provides great strength and is extremely compact, allowing it to roll into a small aluminium box with 45° chamfred edge to minimize their visual impact.

Available spring operated, crank handle operated or electric operated ideal for domestic and commercial properties.

## Industrial Galvanized Roller Shutter Door

Manufactured from 75mm galvanised steel sections up to 6000 mm wide . Solid or Perforated. Ideal for shop fronts and industrial units.

Available spring or electric operated.

## Birkdale Sectional Garage Doors

Insulated garage doors with Ribbed or Georgian panelled design. With window and colour options.

- Finger Trap Protection
